

CROSSWINDS

Where the spirit of the Lord is there is liberty. II Cor. 3:17

Serving the modeling community since 1995

Oct. 2017

The FCM at AMA stunt championships.

This was our 18th year for hosting this contest. Every year control line stunt pilots from around the mid-west gather at the AMA national flying site in Muncie, IN. for the two day get-to-gather. It is competition, but the real emphasize is on fun and fellowship. The weather was perfect, low 80's sunny skies and 5 mph winds. Here are a few pictures from that event, enjoy.

This is about 1/2 of the airplanes that were entered.

You can't see their faces but it is (L to R) Mike Eber & Will Hinton. Mike flew to a 3rd place finish in advance class. His plane, a "Petra 6" powered by a OS .46VF with a tuned pipe and a Bolly 11.5 X 5 carbon prop.

What was it like?

I often wonder what it was like for the people in the Nazi concentration camps.

Question, could I have held up in those pressure situations and held my ground as a Christian? A gun pointed at me, what do I do or say?

In 2010 I was a member of the USA scale team that went to Poland, one of our days off a group of us went to Auschwitz concentration camp. I stood on the train tracks that I've seen in movies many times but this time it was different, I was actually there. The feeling was

indescribable; so many people lost their lives at that place for what they believed.

Question, in the work place do I hold up to pressure situations as a professing Christian? It's not a death camp but with persecution from my co-workers and friends for the name of Christ are the same, just no gun pointed at me. Today's "scripture for the month" sheds some light on this.

At the end I want to hear "well done good and faithful servant" how about you?

Blessings
Allen

Vince Bodde primes his S T .60 as Don Main holds. Vince finished 3rd just 1/2 point behind 2nd place winner Wesley Dick.

Wesley Dick from Ft. Wayne, IN. starts his "Velvet" for Sundays competition, Larry Fruits holding.

This airplane was designed and built by Wes, in fact his red and blue Velvet can be seen hanging in the AMA museum.

4th annual NASA Scale Classic.

The NSC is another one for the "bucket list". 2016 event was held at Green county airport in Waynesburg, PA... John Brodak put in some long hours to make this event happen. The airport personnel treated us like family, such a great time.

The NSC combines both C/L & R/C scale competition and on Saturday night a very nice banquet. Site for 2017 will be in Muncie, IN. at the AMA national flying site Oct. 6th-8th 2017. Come and fly with us or just come and see some really great looking C/L & R/C scale flying models. There will be everything from 1/2A (.049), 4 engine bomber, 120 pound 1/3 scale military aircraft and WW I bi-planes. Come see the best scale models in the world.

Concourse winner.

This beautiful airplane built and flown by Bob McDonald from Detroit, MI. won the best looking airplane award. It was not an easy job picking the best airplane; there were so many nice ones to choose from.

Bob also took 1st place in "classic" with this airplane.

Scripture for the month.

"Blessed are you when people insult you, persecute you and falsely say all kinds of evil against you because of me. Rejoice and be glad, because great is your reward in heaven, for in the same way they persecuted the prophets who were before you.

Matthew 5:11-12 NIV

FCM National Prayer Chain;

If you or someone you care about are in need of prayer contact the address below and it will go out to our prayer chain right away. Our members span around the world to intercede for your needs.

If you would like to be a member on the FCM prayer chain contact Joe Bolden at the address below.
